August 2015 Newsletter

Issue 8

Connecticut & National Transportation Updates

New Haven's New Plan

New Haven launched a new transportation plan to encourage residents to utilize "NuRides" which allows people to sign up for carpooling as well as a city employees transit pre-tax program. By opting into the program you can earn points which can be used at restaurants and other destinations in New Haven. www.goNHgo.org

FTA Update

Public comments are being sought by August 17, 2015 concerning the FTA's Buy America pre-award and post-delivery audit requirements for rolling stock procurements.

Comments are also being solicited by August 24, 2015 for a Notice of Proposed Rulemaking would "amend the process for testing the safety and reliability of new transit buses funded with Federal dollars, pursuant to the Moving Ahead for Progress in the 21st Century Act." http://www.fta.dot.gov/newsroom/12910_16493.htm

-FTA website

Governor's Transportation Finance Panel Update

The panel met on July 29 and heard various presentations regarding tolls, STF revenue, fares increases and "Mileage Based User Fees". Chair Cameron Staples began the meeting by reminding everyone that the panels roll was "soliciting information on all ranges of revenue options" and no decisions had been made. With the advent of newer, sophisticated modern tolling tolls such as all-electronic, the use of toll plazas and booths is no longer necessary. There continues to be resistance in Congress for raising the gas tax, which hasn't been raised in 22 years.

The meeting is available to view on Connecticut Network (CTN):

<http://ct-n.com/ctnplayer.asp?odID=11824>

Federal Highway Bill

An \$8 billion stopgap three-month spending bill passed the Senate and Congress on July 30 to fund transportation and federal highway projects.

Revenue for Transportation

The legislature approved a bill that would allow ½ cent from the sales tax to be directed towards transportation.

*"Residential property values perform 42 percent
better on average if they are located near public
transportation with high-frequency service."*
